British system of judicial administration.

is, unfortunately, more frequently the engine

of man's revenge than anything else. Under

English rule, as far as it is possible for it to

be, it is impartial, but even so, it is not

brought before the public eye, and is not

under exceptional circumstances, when imprisonment

is not sufficient to provide redress. In China,

on the contrary, corporal punishment is the

rule, and the weight of the strokes and the

number of the bamboo is usually determined

by the offender's ability to pay for his misdeeds.

In some few cases where the offence

has been committed against the ruling power,

a bribe is of no avail. As to the thief who

is caught, lying in wait on the property

of the Government. He is speedily flogged

the impudence of such a venture, and generally

receives some lasting reminder of the

heinous crime of which he has been guilty.
